

## Weld-Ed Affiliates Industry Network

### Who are we?

Weld-Ed is a national partnership of colleges, universities, professional societies, government and private industry. Together, we are committed to increase the quality and quantity of highly skilled welding and materials joining technicians to meet industry demand.

### Why partner with us?

#### *We offer:*

- Opportunities to network with materials joining faculty and administrators of our ten Regional Centers
- Opportunities to network with organizations such as American Welding Society and National Association of Manufacturers
- Access to a pool of highly trained and diverse Welding Technicians from our Regional Center locations
- Access to Weld-Ed networking tools to collaborate and exchange ideas and best practices
- Professional development opportunities and technical assistance
- Identification of state-wide materials joining and welding technologies educators
- Updates on emerging trends and industrial innovations
- Opportunities to attend conferences and workshops
- Information on available lab equipment, used equipment donations, auctions and exchange programs
- Access to regional and national economic reports and survey data
- Access to the upcoming Weld-Ed Newsletter
- Recognition as a Weld-Ed Industry Affiliate on our website and printed materials.

**Join Weld-Ed in our quest to build a solid foundation of highly trained welding technicians to meet America's on-going workforce needs.**

**No membership fee is required to enroll or to maintain your membership status throughout the term of the grant (06/2011).**

**Come join us. When sparks fly, the possibilities are endless!**
