

National Center for Welding Education and Training

Welding Education & Training
Entering Partnerships for Success
Lifetime Careers
Developing America's Workforce

Weld-Ed Affiliates College Network An Association of Postsecondary Welding Technician Educators

Who are we?

Weld-Ed is a national partnership of colleges, universities, professional societies, government and private industry. Together, we are committed to increase the quality and quantity of highly skilled welding and materials joining technicians to meet industry demand.

Why partner with us?

We offer:

- Opportunities to network with materials joining faculty and administrators of our ten Regional Centers
- Access to Weld-Ed networking tools to collaborate and exchange ideas and best practices
- Weld-Ed curriculum designs, teaching modules, planning guides and recruitment tools
- Professional development opportunities and technical assistance
- Support and information on increasing program enrollment
- Identification of state-wide materials joining and welding technologies employers
- Updates on emerging trends and educational innovations
- Information on grant opportunities such as NSAF/ATE grants
- Opportunities to attend conferences and workshops
- Information on available lab equipment, used equipment donations, auctions and exchange programs
- Access to the upcoming Weld-Ed Newsletter
- Recognition as a Weld-Ed Educational Affiliate on our website and printed materials

Partner Profile:

Faculty member or administrator from one of the following institutes that provides education for technicians in the welding and materials joining industry:

- High-school
- Career/Technical Institute
- 2-year college
- 4-year college

Join Weld-Ed in our quest to build a solid foundation of highly trained welding technicians to meet America's on-going workforce needs.

No membership fee is required to enroll or to maintain your membership status throughout the term of the grant (06/2011).

Come join us. When sparks fly, the possibilities are endless!
